

**246.660 Department to administer program for wild American ginseng --
Regulations.**

The department shall administer a program for wild American ginseng in Kentucky which provides a framework, including a limited harvesting season, in which wild American ginseng shall be eligible for exportation in compliance with federal requirements. The department shall promulgate regulations to carry out this program and cooperate with and enter into agreements with any other agency of this state, any other state, or the federal government to carry out this program. Any regulation promulgated under this section shall be no more restrictive than minimum federal requirements.

History: Created 1982 Ky. Acts ch. 415, sec. 2, effective July 15, 1982.
