

278.610 Requirements for certification of nuclear power facility.

If the requirements of KRS 278.605 have been met, the Public Service Commission may certify a nuclear power facility if it finds that:

- (1) Specific facilities with adequate capacity to contain high-level nuclear waste are in actual operation, or will be in operation at the time the nuclear power facility being certified requires the means for the disposal of high level nuclear waste;
- (2) The plan for disposal of high level nuclear waste for the nuclear facility to be certified is in full conformity with the technology approved by the authorized agency of the United States government; and
- (3) The cost of disposal of high level nuclear waste from the nuclear facility to be certified is known with reasonable certainty, such that an accurate economic assessment of the proposal can be completed.

Effective: July 13, 1984

History: Created 1984 Ky. Acts ch. 15, sec. 3, effective July 13, 1984.
