

321.195 Retirement and reactivation of license.

A veterinarian who wishes to retire his license shall complete an affidavit indicating permanent retirement of the license to practice veterinary medicine. Retirement shall not be permitted if the veterinarian is still engaged in veterinary medicine in any other state. If reactivation of licensure is desired, a veterinarian shall submit proof of the completion of the continuing education requirements of KRS 321.211 within the last twelve (12) months and remit appropriate renewal fees.

Effective: July 14, 1992

History: Created 1992 Ky. Acts ch. 299, sec. 6, effective July 14, 1992.

Legislative Research Commission Note (7/14/92). This statute was created in 1992 Ky. Acts. ch. 299, which contains the enrolled text of Senate Bill 250. A committee substitute for this bill was adopted by the House with a floor amendment, and the Senate subsequently concurred in this action by the House; this amended substitute thus became the enrolled version of the bill. In drafting the House Committee Substitute, the original Section 10 of the bill was deleted in its entirety, but internal section references within the bill were not renumbered to reflect this deletion. Therefore, in codifying this statute, the internal section reference within Acts ch. 299, sec. 6, has been changed pursuant to KRS 7.136(1).
