

352.180 Accidents, fire, explosion, entrapment in mine -- Notice, investigation, assistance, and records -- Failure to comply -- Testing post-accident -- Investigative powers of commissioner.

- (1) Whenever a serious physical injury or loss of life occurs in a mine or in the machinery connected therewith or whenever a fire, explosion, entrapment of an individual for more than thirty (30) minutes, inundation of a mine by water or gases occurs, the superintendent of the mine, or, if he is absent, the mine manager, or if he is absent, the mine foreman in charge of the mine or his designee, shall within fifteen (15) minutes of having actual knowledge of the occurrence and access to the communication system as required under KRS 352.630(3) give notice to the department and to the representative of the miner, stating the particulars of the accident. No person shall alter the scene of a mining accident in a manner that will interfere with the department's investigation of the accident, except to the extent necessary to rescue an individual or to eliminate an imminent danger.
- (2) Upon receipt of notification of an occurrence set forth in subsection (1) of this section, the mine inspector shall immediately go to the scene of the accident and make an investigation and suggestions and render the assistance as he deems necessary for the future safety of the employees, investigate the cause of the fire, explosion, or accident, make a record thereof, and forward it to the commissioner.
- (3) The record of the investigations shall be preserved with the other records of the commissioner's office. To aid in making the investigations, the commissioner or the mine inspector may compel the attendance of witnesses and administer oaths.
- (4) Failure to comply with the reporting requirements set forth in this section shall create a rebuttable presumption of an intentional order to violate mine safety laws that places miners in imminent danger of serious physical injury or death and shall be subject to revocation, suspension, or probation of the mine license and a civil monetary penalty of not less than ten thousand dollars (\$10,000) nor more than one hundred thousand dollars (\$100,000).
- (5) The Office of Mine Safety and Licensing may require testing of certified persons to determine whether the presence of intoxicants or controlled or illicit substances are a contributing factor in any mine accident in which serious physical injury or loss of life occurs or which was reported under this section. The executive director or his designee may order the testing of certified persons who:
 - (a) Were working in the immediate area of the accident; or
 - (b) In the judgment of the executive director or his designee, may reasonably have contributed to or witnessed the accident or fatality.
- (6) The post-accident testing permitted by subsection (5) of this section shall:
 - (a) Meet all guidelines set forth in KRS 351.182, 351.183, 351.184, and 351.185;
 - (b) Be paid for by the Office of Mine Safety and Licensing; and
 - (c) Be performed on samples obtained within eight (8) hours of the accident.
- (7) Toxicology screens and eleven-panel drug testing shall be performed on victims when death occurs on mine property. The testing pursuant to this subsection may be performed on specimens of either blood, saliva, or other appropriate bodily fluids.

- (8) The commissioner or his or her authorized representative may compel the attendance of witnesses and administer oaths to investigate allegations of unsafe mining conditions or violations of mining laws even if no accident or injury has occurred.
