

HOUSE OF REPRESENTATIVES

KENTUCKY GENERAL ASSEMBLY AMENDMENT FORM  
2018 REGULAR SESSION  
**Unofficial Document**

Amend printed copy of **HB 227/HCS 1**

On page 1, line 3, and continuing through page 5, line 13, delete all sections of the bill and insert in lieu thereof the following:

"➔Section 1. The staff of the Kentucky Public Service Commission shall study whether the retail rate paid to participating eligible customer generators by electric utilities participating in the net metering program results in non-participating ratepayers subsidizing the eligible customer generators. The study shall identify whether eligible customer generators, as a type of distributed generation, should bear a share of transmission and distribution costs that are normally required to be paid by electric utilities. Finally, the study shall examine whether electric utilities make additional revenue from purchasing electric power from eligible customer generators at the price paid under the retail rate during summer peaking, which is in turn sold either to the rate payers of the electric utilities or as off-system sales. The Kentucky Public Service Commission shall report findings and recommendations regarding the net-metering program to the Legislative Research Commission by December 1, 2018."

Amendment No. HFA 18

Rep. Rep. Dennis Keene
