

100.243 Findings necessary for granting variances.

- (1) Before any variance is granted, the board must find that the granting of the variance will not adversely affect the public health, safety or welfare, will not alter the essential character of the general vicinity, will not cause a hazard or a nuisance to the public, and will not allow an unreasonable circumvention of the requirements of the zoning regulations. In making these findings, the board shall consider whether:
 - (a) The requested variance arises from special circumstances which do not generally apply to land in the general vicinity, or in the same zone;
 - (b) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant; and
 - (c) The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.
- (2) The board shall deny any request for a variance arising from circumstances that are the result of willful violations of the zoning regulation by the applicant subsequent to the adoption of the zoning regulation from which relief is sought.
